

substitute Abstract and Title included herewith as Attachment "A".

**In the Claims:**

Please amend claims 1-3 as shown in Attachment "B".

**REMARKS**

Claims 1-3 are pending in the application and are presented for reconsideration and further examination in view of the foregoing amendments and following remarks.

In the outstanding Office Action the specification, abstract, and title were objected to; claims 1-3 were objected to; claims 1-3 were rejected under 35 U.S.C. § 112, 2<sup>nd</sup> paragraph as indefinite; and claims 1-3 were rejected under 35 U.S.C. § 102(b) as anticipated by U.S. Patent No. 4,858,003 to Wirt et al.

By this Response and Amendment a substitute specification, inclusive of substitute title and abstract is submitted; and claims 1-3 are amended to obviate their objections and to further differentiate the claimed invention over the cited prior art.

It is respectfully submitted that the above amendments introduce no new matter within the meaning of 35 U.S.C. § 132.

**Objection to the Specification/Abstract/Title**

The Examiner objected to the specification, abstract, and title as not being in proper idiomatic English, as having grammatical errors, and as not being descriptive of the invention.
